Product information

name	thermometer	range	32—43°C
model	JT002BTS	humidity	-20°C+60°C ≤85%RH
detector	thermistor	weight	15g(included battery)
temperature	Four digit display	size	20mm*130mm*13mm
accuracy	±0.05°C (36-39°C) ±0.2°C (32-35.99°C, 39.01-43°C) ±0.1°F (96.8-102.20°F) ±0.4°F (89.6-96.78°F, 102.2-107.6°F)		

Measure in a room temperature test tank at room temperature of 25 °C (77°F)

2

High sensitive thermistor temperature measurement

The advanced temperature sensing technology, aimed at the oral temperature measurement, can be measured in a minute to measure the body temperature
